

IMPACT OF INVESTMENT (IOI)

INSTRUCTIONS

TIME:

45+ mins.

YOU WILL NEED:

Pen, and print outs of the template for everyone to fill in.

WHAT'S IT FOR?

Measuring the impact of your actions is essential to show your Purpose in action, to build loyalty and trust with customers, and to make sure you're never greenwashing. This exercise won't give calculate the impact outright, but it will provide the framework that ensures you're seeking the right data as you purposeful actions play out.

HOW DO I USE IT?

1. First, go through the framework and example with the whole group. Make sure everyone is clear on the difference between output and impact. (10 mins)
2. Give everyone the chance to fill out the framework. (10 mins)
3. Share, discuss and align on final impact measurement framework filled in. (10 mins)
4. Agree how you will measure this impact and what is needed to make it a reality. (10 mins)
5. Brainstorm on what exciting ways you could tell the world about the impact you've had, once you've measured it! (5 mins)

RESOURCES INVESTED	CONCRETE ACTIONS	TANGIBLE PRODUCTS OF ACTIVITIES	THE IMPACT RESULTING FROM THESE ACTIVITIES
<p>Input the hard costs that you can measure internally of the activity.</p> <p>€ invested Number of people Time committed Etc.</p>	<p>Explain the main focus of the activity you're launching.</p> <p>A global cause programme A partnership with an NGO A behaviour change campaign Etc.</p>	<p>Explain what outputs you achieved, looking at your own brand or company.</p> <p>Number of impressions of content Number of projects delivered Number of participants Etc.</p>	<p>THIS is the impact measurement. Look at how you changed the world for the better.</p> <p>Number of lives changed % increase in behaviour change Actions taken Etc.</p>
